Apprenticeship messages

- **Apprenticeships develop a motivated, skilled and qualified workforce.** Apprentice employers report benefits including improved skills levels, service, morale and productivity.
- **Apprenticeships improve productivity while reducing costs.** The average apprenticeship completer increases business productivity by £214 per week, with these gains including increased profits, lower prices and better products.
- **If you're a small business, you could get a £1,500 grant (£3,000 in London)** to help cover the cost of starting a new apprentice aged 16 to 24 years old. More than 106,000 extra young people have been able to start an apprenticeship thanks to this grant.
- For individuals who are not yet ready for an apprenticeship, there is now the option of a **traineeship - a new programme to help people get 'work ready'**.
- **There has never been a better time to employ an apprentice.**

Notes & Definitions

1) Constituency volumes are rounded to the nearest ten, England Totals are rounded to the nearest hundred.

2) '-' Indicates a base value of less than five.

3) For definitions of variables used in the tables please see the data dictionary:

<http://webarchive.nationalarchives.gov.uk/20140107201041/http://www.thedataservice.org.uk/datadictionary/>

4) The data source for all tables is the Individualised Learner Record, except where stated.

5) Age is calculated based on age at start of the programme rather than based on 31 August.

6) In this table full-year numbers are a count of the number of starts at any point during the year. Learners starting more than one Apprenticeship will appear more than once.

7) Programme-Led Apprenticeships recorded in ILR returns are included in the figures.

8) Further apprenticeship information can be found in the FE data library here : <https://www.gov.uk/government/statistical-data-sets/fe-data-library-apprenticeships>
