

Spotlight on Apprenticeships

Salisbury

An apprenticeship snapshot for Wiltshire

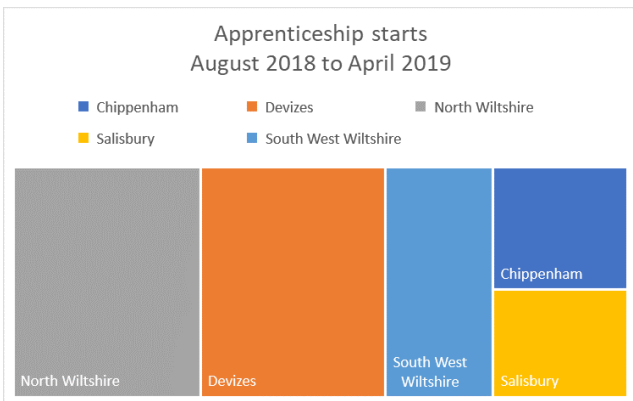

October 2019

This newsletter was produced by the Employment and Skills Service at Wiltshire Council to showcase employers, providers and the range of opportunities available through the apprenticeship route.

Apprenticeships in Wiltshire

Wiltshire saw 5720 apprenticeships started between August 2017 and July 2018.

The parliamentary constituency of Salisbury which includes the towns and villages of Amesbury and Downton accounted for 530 of these starts across all sectors and levels.

Starts for the first three quarters of this academic year (August to April) show continued apprenticeship growth with a total of 4290 starts recorded for Wiltshire; 440 of which were across the Salisbury constituency.

Be Involved

[Be Involved](#) is a Wiltshire initiative that enables employers to support the employability of young people and the future workforce. In creating a directory of organisations who pledge to work together around key areas across the county: supporting local schools and those with significant barriers to work, apprenticeships, traineeships and supported internships.

Be Involved enables business to support the residents of Wiltshire as well as assisting local projects such as the [Enterprise Adviser Network](#) and [Building Bridges](#).

Meet an apprentice

We regularly feature [Apprentice Stories](#) on our website; meet Hannah an accounts apprentice at Chipside in Brinkworth [here](#).

National Apprenticeship Week 2020

National Apprenticeship Week is an annual week-long celebration of apprenticeships across England.

Apprenticeship employers use the opportunity to promote the success of their apprentices and highlight the huge benefits to other employers, of all sizes, who are thinking of taking on an apprentice.

Apprentices across the country will also be celebrated throughout the week, with engagement and events in schools and colleges. Many current and former apprentices will go back to school to tell their story, attracting the next generation of apprentices, so they too can fire up their future career.

Current vacancies in this area

Apprenticeship vacancies are advertised throughout the year by local employers such as Martin and Co, Defence Science and Technology Laboratory, Network Rail, Go Skydive and Tidworth Polo Club. You can search for vacancies [here](#). Here is a sample of **live vacancies**:

[Bawden Contracting Services Ltd – Digital Marketing Apprentice](#)

[Toby Carvery – Apprentice Chef](#)

[Solstice Domestic Angels Ltd – Team Supervisor Apprentice](#)

Apprenticeship Reforms – What's new?

Apprenticeships have seen considerable change through the introduction of these reforms and the apprenticeship levy, a charge payable by employers with a wage bill greater than £3m; this money is then reinvested into apprenticeship training for businesses of all sizes.

Withdrawal of Frameworks

On 31st July 2020 [apprenticeship frameworks will be withdrawn](#). This means there will be no more starts on frameworks from the 2020 to 2021 academic year onwards. All new starts will be on high-quality standards.

Off the job training

The Education and Skills Funding Agency have published a guide on [how employers and training providers should meet the 20% off-the-job training requirement](#) for apprentices.

An alternative to university!

Higher and Degree level apprenticeships are an area of rapid growth and offer a real alternative to university for applicants and not just for those that live in large cities such as London, Bristol and Birmingham. There are some great opportunities across Swindon and Wiltshire from businesses such as Arla Foods, Bew & Co, Hartham Park, Siemens and Zircon Software.

Applications for these programmes often open well in advance of the job starting, usually between October and March to start the following September. It is therefore important to sign up to the [Find an Apprenticeship](#) service website where you can opt in to receive alerts as vacancies are announced based on your criteria or location.

The National Apprenticeship Service offer support through their [vacancy snapshot](#) publication which highlights national opportunities

Apprenticeship Ambassador Network

The South West Apprenticeship Ambassador Network (SWAAN) is a group of employers, whose main aim is to engage new businesses to commit to apprenticeship delivery in the South West of England. The Apprenticeship Ambassador Network inspires and influences people to choose apprenticeships, as a route to create business and individual success across the country.

The Apprenticeship Ambassador Network is for businesses who have apprentices in their workforce regardless of size or industry.

Current and former apprentices can provide inspiration for the next generation by attending events and speaking at local schools; providing an insight into their day to day work roles.

To get involved in the regional network contact us or look at the website for more information [here](#)

#FACT

An apprenticeship can boost a young person's career, while offering great financial benefits. They'll be paid (at least the national minimum wage, but often a more competitive salary), and they'll spend at least 20% of their time completing off-the-job training – at no cost to them. This could include working towards a degree or other qualifications. At the same time, they'll gain experience in a real workplace, and develop important soft skills as they transition into the world of work.

Our offer to employers

The Employment and Skills Service with our colleagues at [Higher Futures](#) can support businesses of all sizes to develop an apprenticeship programme, help with recruitment and upskill existing employees through a series of training programmes and apprenticeship options, many funded through our extensive partnership network.

Our Work Wiltshire website is a one stop shop for all education, employment and skills information and support.

If you are an employer or an apprentice and would like to feature in future editions, contact us using the details below.
